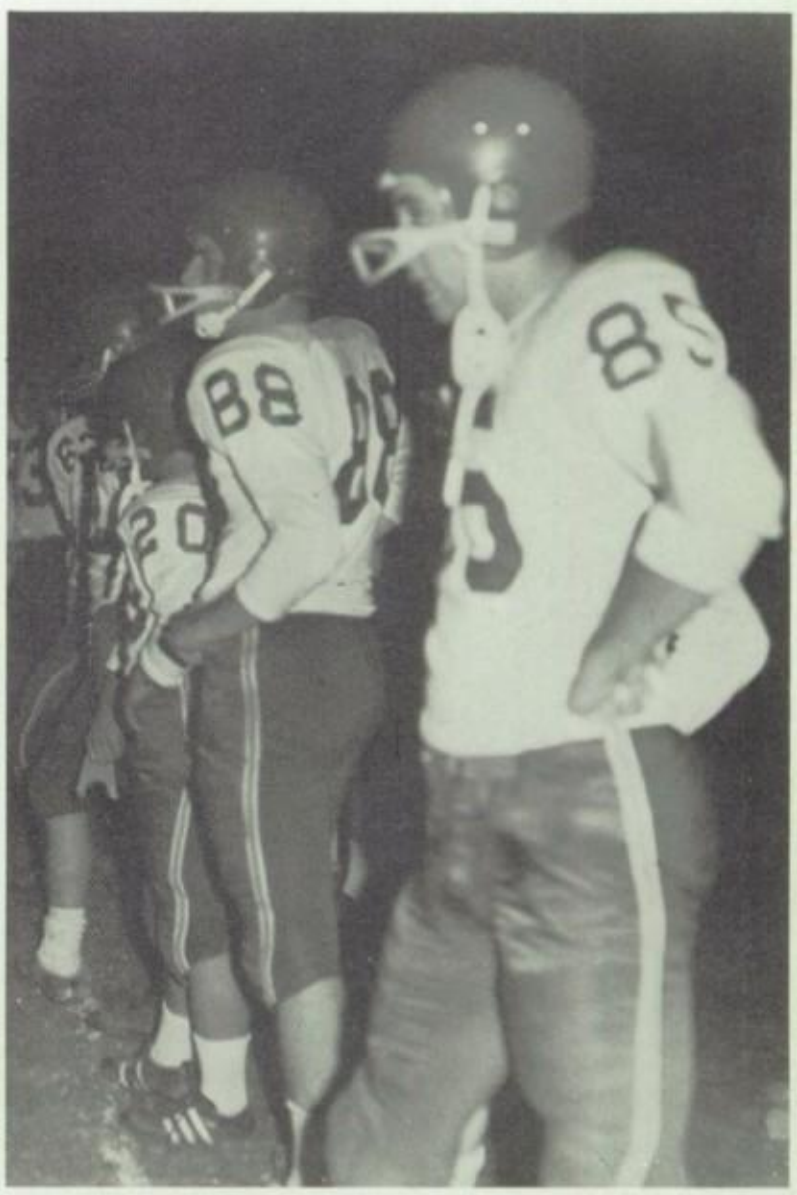
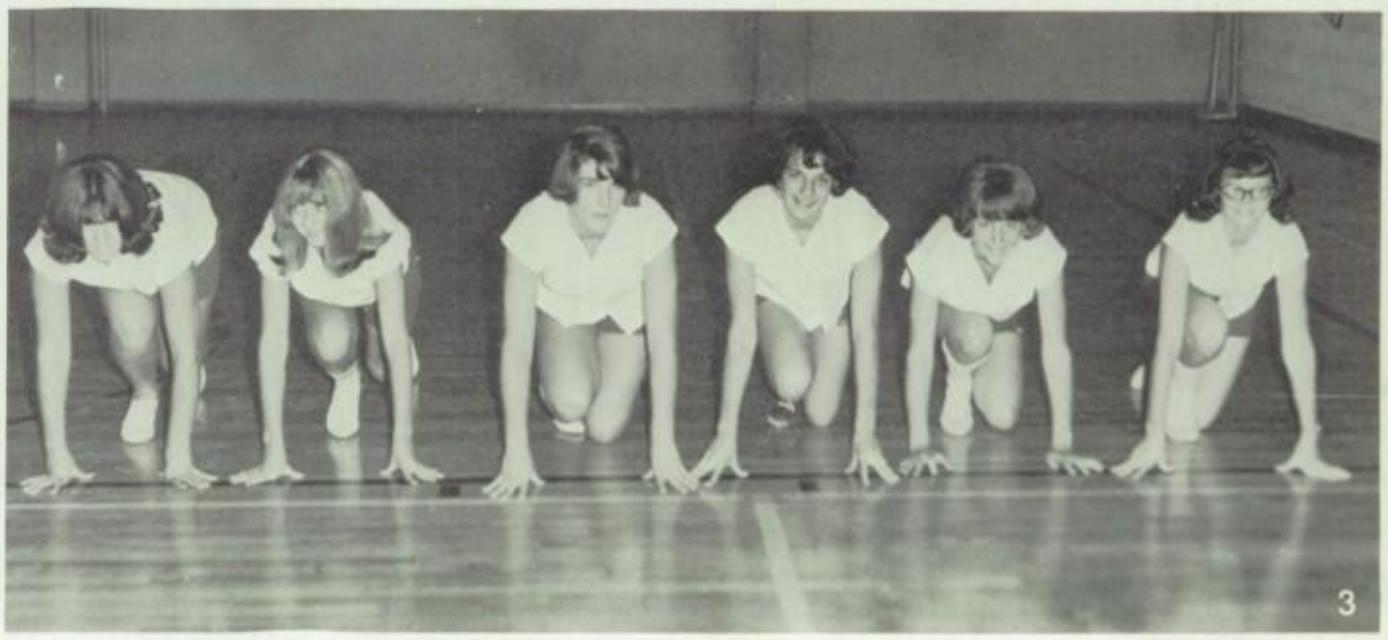
# CENTENNIAL HIGH SCHOOL

# WHERE THE ACTION

# IS . . .





# MOMENTS TO

The Centhiscan camera takes members of the Senior class by surprise as they work on their homecoming poster.

The Frosh show potential greatness for spirit at their first game of the year.

With the help of the Art Department and Mr. Chase, beautiful scenery was painted for Camelot.

The Juniors took their frustrations out on the battered car. The project's object was to raise money for the Prom.

# REMEMBER

The crowd is speechless as Centennial approaches the goal post.

Neil Hutchinson and Wayne Cox beg students to buy some of the Senior girl's baked goods.

To add variety and spice to Centennial life, the foreign exchange students from other schools spent a day here.

These were the first to find out the election results.

## ALMA MATER

Hail to thee Centennial High,
Again we sing thy praise.
Our loyalty we pledge to thee
Throughout our high school days.

To spread the fame of her great name
Is a dream that we shall ever hold.
A tribute to her sons so true,
All hail to the Red and Blue.

## FIGHT SONG

On you Eagles win this game,
FIGHT Centennial High School.
We will bring you honor and fame
And fight until the very end.

The Red and Blue will stand by you,
HAIL Centennial High School.
We're so proud of you the Eagles
Let's give a mighty cheer for you-RAH!

# OUR SUPERINTENDENT

Mr. Harry A. Thompson, superintendent of the Gresham High School District, has served the district as superintendent for the past 15 years and has led in the admirable progress of our school system.

# SCHOOL BOARD

With concern and interest, the School Board meets monthly to plan and determine new ideas for our school district. Chosen for this task are responsible representatives from all walks of life. They work to provide a diversified school system with quality education.

Superintendent, Harry Thompson, points out our many speech trophies to Curriculum Director, Trostel Werth.

Seaed: James Carson, Richard W. Cettel, Edwin W. Martilla, Elmer E. Settergren, Norman Norquist, Standing: Nelda Radak, Harry Thompson.

# OUR PRINCIPAL

The life of a High School Principal has its ups and downs. It takes an understanding, gentle, yet firm character to undergo the pressures applied by the adolescent society. Such a person is our principal Mr. Wilfred Burgress.

VICE-PRINCIPAL

Understanding and compatibility are most important when dealing with the young mysterious world of the adolescent. Mrs. Dorothy Bumala, Dean of Girls, has these qualities. Her stern expression has a tendency to raise fear in the guilty mind, but her broad, warm smile assures students of a fair and honest solution to any problem.

VICE-PRINCIPAL

Mr. Allan J. Thede, Dean of Boys, has been at Centennial for six years. Mr. Thede is a real asset to Centennial and tries to be a "pal" to each boy he meets. To show their appreciation for his concern, students have fondly nicknamed him "Uncle Al".

# ENGLISH

English is a four year course of study at Centennial. It's main purpose is to help the student develop his ability to use the basic skills of communication. This is accomplished through work in reading, writing, speaking and listening. Its underlying purpose is to help the student develop an understanding of our language, spoken as well as written.

Busy seniors work hard at the annual inevitable assignment — term papers.

Mr. Cliff Strommen checks Frances Martel's interpretation of Gibran's book, The Prophet . . . a very controversial subject in his junior classes.

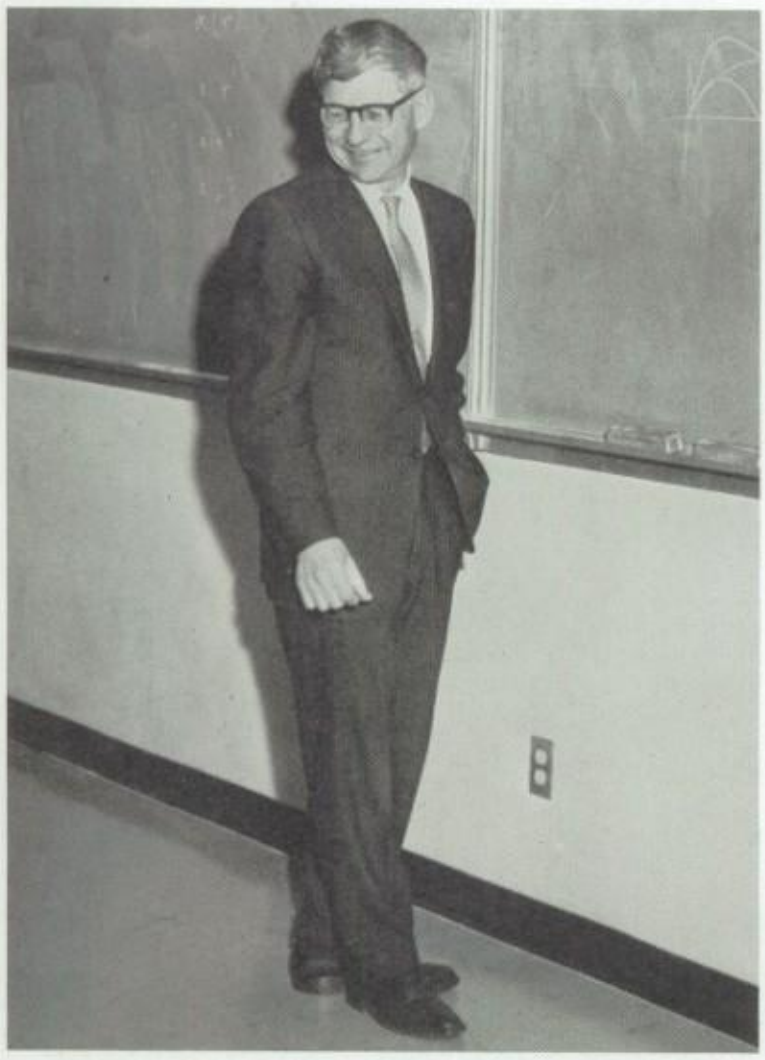
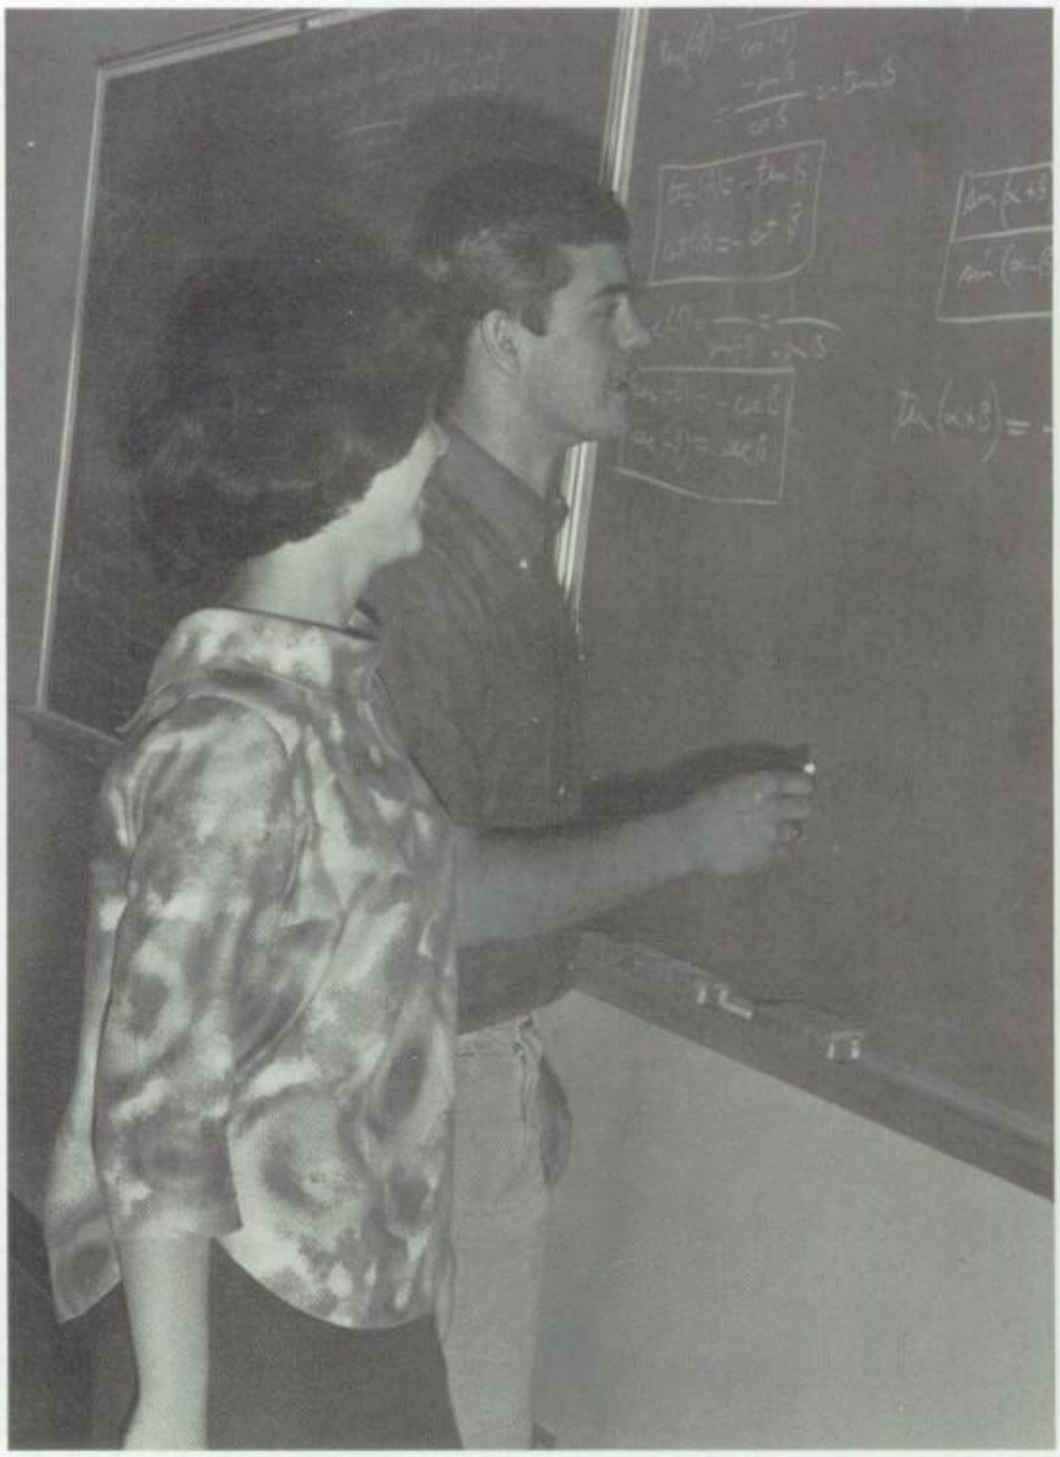
# MATHEMATICS



With all the emphasis upon rocket and space travel, there is a growing need for able mathematicians. However, the knowledge of mathematics is one which is called upon every day in almost every vocation. Centennial's Math Department offers different courses in this growing field, including various levels of algebra, geometry, trig, general math, consumers math, and college prep.



Jim Clarke and Sherry Hannigan volunteered to show the class "the right way."

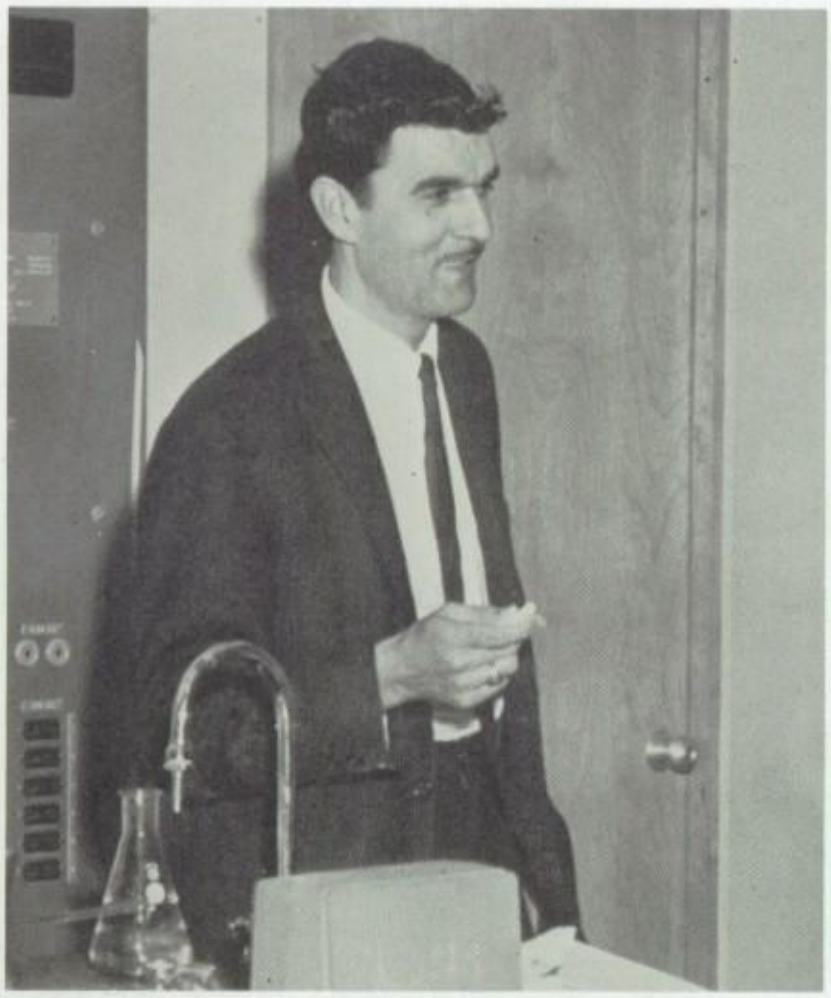
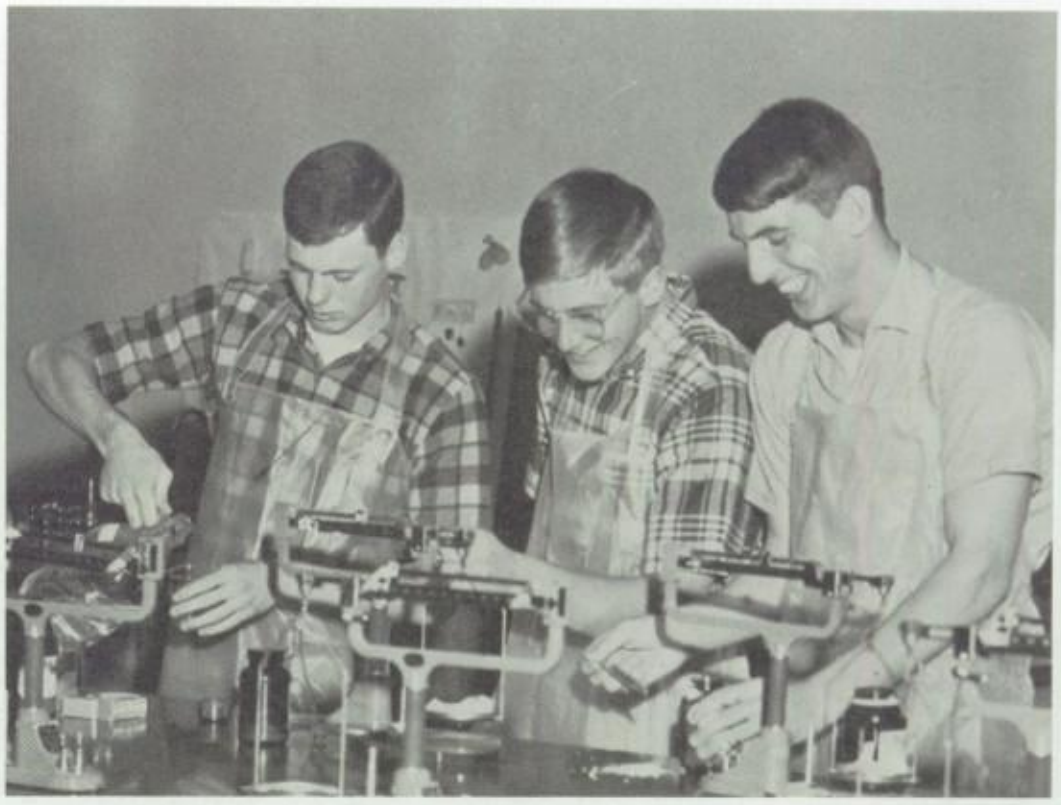
# SCIENCE



It is a complicated world we live in. In order to understand the many mysteries of the earth, we need to know something about them. Science students learn about these mysteries from the tiny ones involving minute cells to the huge, baffling occurances in our great universe. Through experiments and book study, science students are given a basic understanding of the natural and man-made phenomena which surrounds them. They learn the origin of colors, complexities of nature, of fource, energy, motion, and light.



Careful procedure and exact measurements are very important in science. What are these three seniors doing in Chemistry?

Biology is largely a science of observation. The microscope is one of many tools to help us see more clearly.

# SOCIAL STUDIES

The aim of the Social Studies department is to develop students into clear thinking adults. This is done through studying past generations, and different problems of human conflict. As the globe grows smaller it becomes increasingly necessary to obtain knowledge of the United States in proportion to the rest of the world. U. S. History is required for all seniors. Students have found courses in World History and World Geography to be beneficial electives.

" . . . And right here is where my Granny Hopkins lives," points out Mr. Klug, U.S. History teacher.

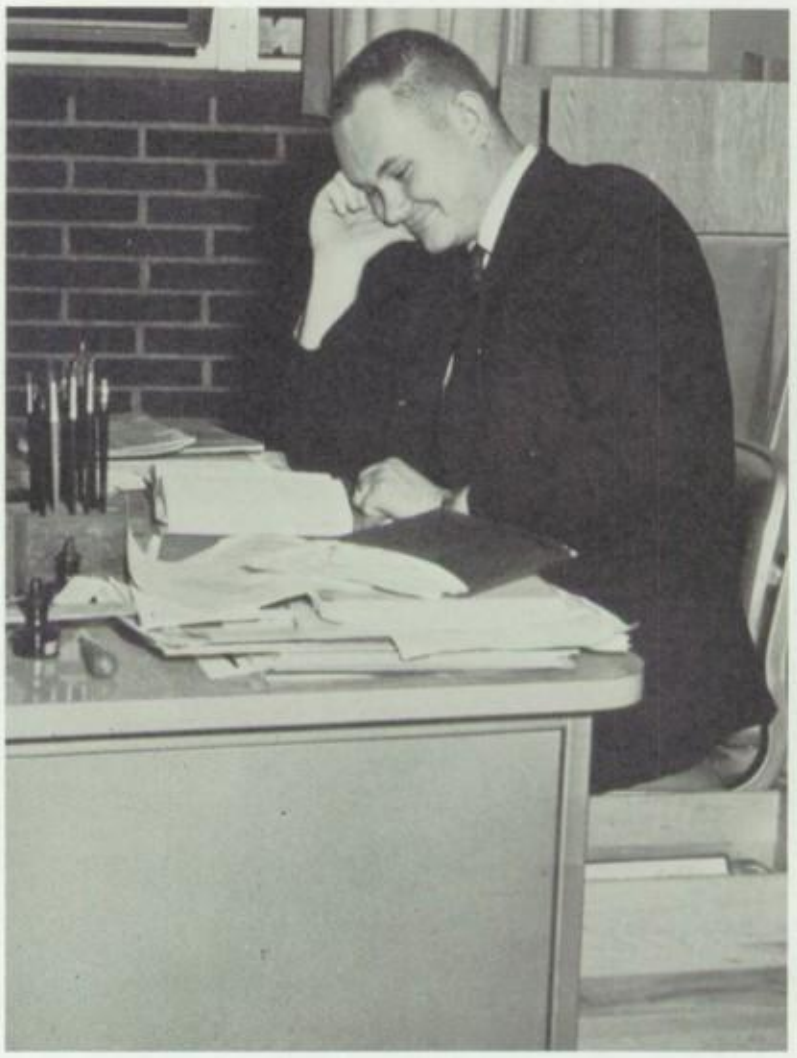
# ART

Larry Thames carefully constructs a model room that was later displayed in the hallway showcase.

A strenuous game of tiddley-winks goes on between Bob Moshberger and Dick Cotton.



You may not realize it, but you come into contact with the world of art everyday. The clothes you wear, the design of the school building and the pictures you see everyday are connected with art. If you have artistic talent, these things are even more noticable. Art is a doorway to an awareness of the world. At Centennial there are many Art courses including general art, advanced art, commercial art, and various craft classes.

Commercial Art classes spent a great deal of time in the making of scale model homes.

# BUSINESS EDUCATION

The clicking of typewriters and voices squeaking in unison are familiar sounds heard when passing by the business education rooms. The world of business is an ever growing one and Centennial's Business Education Department aims to prepare students for it. Courses in business law, general business, office practice, typing, shorthand, briefhand, and bookkeeping are offered. This training equips the student with an understanding of the ever growing business routine in our society.

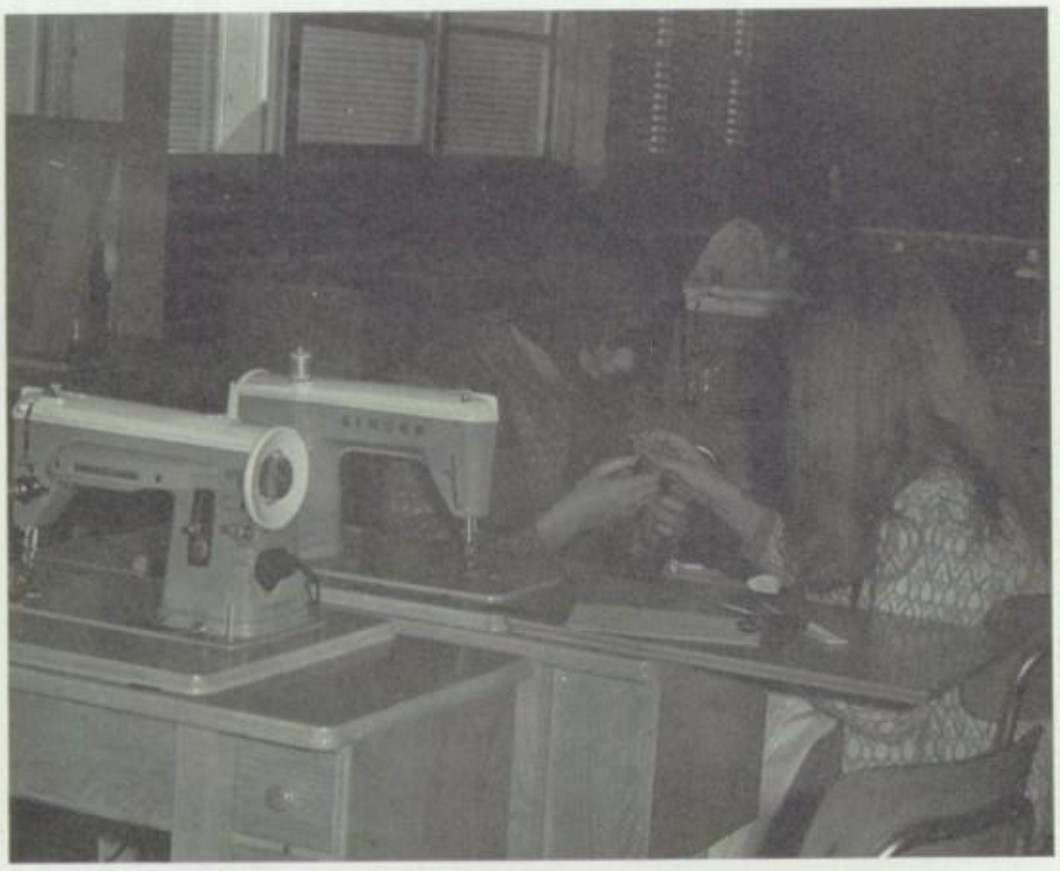
# HOME ECONOMICS



"But I thought there was a needle here somewhere!" is often the statement in the Freshman sewing class.

Soap suds, egg omelets, and suit-dresses are all a part of the domestic world that girls prepare for in home economics class. Learning to be a "housewife" is both an art and a science. The Centennial Home-Ec Department teaches girls to accept their responsibilities as future homemakers. This is accomplished through courses in child care, family problems, sewing, and cooking.

Marla Cunningham and Jan Schilz enjoy learning the art of flower arranging.

Judy Hall uses her cooking ability which won her the Homemakers Contest.

# VOCAL MUSIC

The vocal music department was wildly acclaimed for their excellent presentations throughout the year. Not only the student body but also the entire community appreciate their great quality.

Freshman Boys' Glee sings along with Richard Muhle.

This year brought a new band director for CHS musicians. Under the direction of Mr. Jack Mahoney the concert band performed at the Far West Classic, Band Fun Night, and the Spring Concert. With the new director came new ideas such as an exchange concert with Ashland Senior High School, and the forming of a dance band called the Sophisticates.

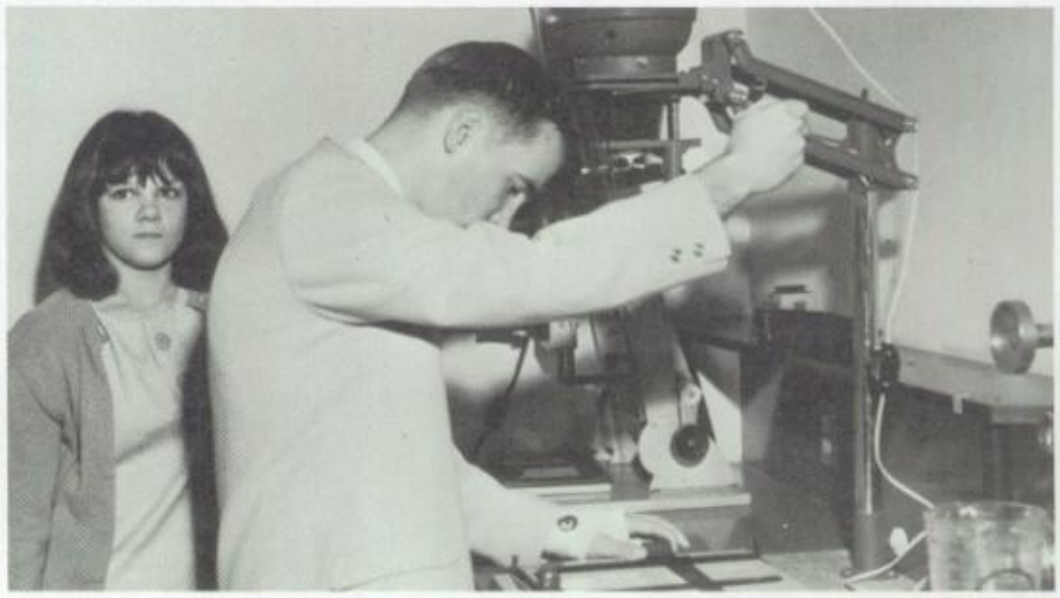
One of the first year Journalism classes writes a news story being careful to include the who, what, when, where, why, how.



Bob Sherman enlarges a picture in the darkroom. Looking on is Laura Lilly.

Journalism and photography classes learn the theories of writing and picture taking and then put this knowledge into practice. Second year journalism classes produce the school paper, while photography classes learn all the essentials from arranging the subject to the finished picture.

# SPEECH AND DRAMA

Wayne Cox gets the "stop" in his second year speech class.

The speech and drama departments had had a very successful and beneficial year at Centennial. As before, the speech team presented numerous trophies to the student body while the drama departments sponsored several very successful plays and a musical. This department not only aided the school but every person involved in speech and drama benefited.

Drama instructor Clifford Sowle points the correct stage turn in hopes that no one will be "upstaged" by Steve Knox.

The year was off to a good start when the teachers were greeted with little dolls carrying a banner welcoming them. Next came the Big and Little Sister Tea which included a Back-to-School fashion show. Girls' League also sponsored a Sock Hop with a Halloween theme.

At the district convention many new ideas were initiated in the Girls' League program. The greatest project sponsored by Girl's League was the Christmas Formal with "Babes in Toyland" as the theme.

Thirty pins were earned this year and a scholarship of one hundred dollars was presented to Kathy Brown, thus ending the many activities of Girls' League.

With a little bit of work these gigantic boxes turn into Christmas presents.

# HOMECOMING WEEK

Homecoming is a traditional event. It is a high spirited time that we will always remember. We do not remember what we made, but how hard we tried. Most of all, we remember the fun.

Perhaps Homecoming means most to the seniors. They judged the Juniors in all fields of competition—poster, float, and spirit. The Juniors did a fine job . . . the Seniors a bit better. Everyone tried . . . the spirit was great.

Traditionally C.H.S. has won its Homecoming games. This year we lost. But even in defeat, the team carried on the most important tradition —giving their best for C.H.S.

"Give me a Big G," shouts Chris Lucas as the rally cheers the team on to another Homecoming Victory.

THE BEST LAID PLANS OF MICE
AND TEACHERS OFTEN GO ASTRAY

A high school faculty is often thought of as strict and straight laced. But the Centennial faculty has the quality that keeps respect along with adding humor and interest in the everyday life of an Eagle. TIl students owe an ode of thanks to the faculty. Their attention and serious suggestions have more than often helped a student over a seemingly big problem.

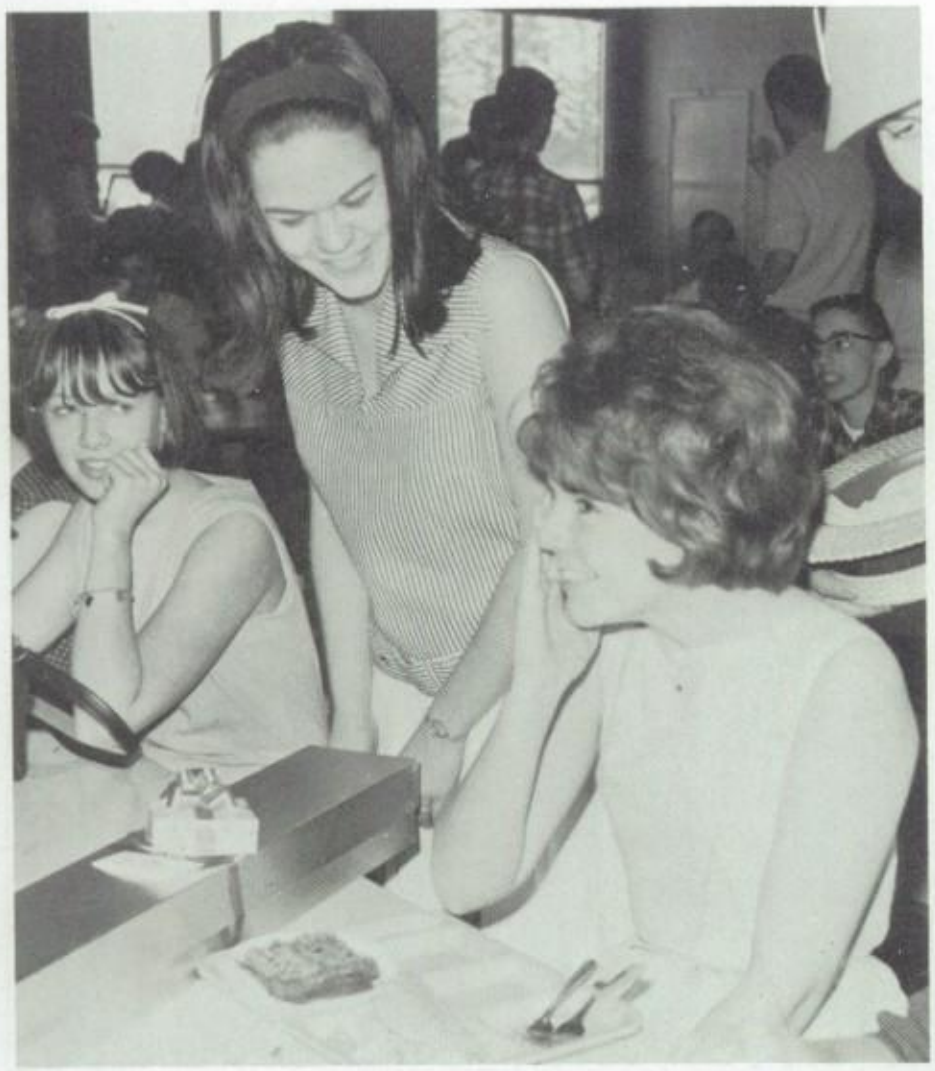
# FOREIGN EXCHANGE STUDENT

Centennial's most popular exchange student, Desley Dunn from Australia, led a very active life this year. The well-liked girl was not only busy in speech but she also played in "Male Animal" and was a member of Thespians and Parlando. While chairman of the Foreign Exchange Student Week, she also had time to keep her grades up and won the Math award. Desley Dunn was also on the Homecoming court.

It is not enough to say that the entire student body enjoyed her stay at Centennial and will miss her next year when she leaves for Australia.



What a birthday surprise! A dozen red roses and a gold bracelet were presented to Desley at lunch. The whole student body donated money for the well-liked exchange student.

Sad at the thought of leaving, Desley manages a smile while packin her suitcase at the Light home.

Desley is overjoyed at seeing snow for the first time. It is summer in Australia during Christmas time.

There are many reasons why Friday is so welcomed by Centennial students. One well-known reason is the fact that Assemblies are held on certain Fridays during the year. This year assemblies were planned and arranged under the direction of Kay Summers, Assembly Committee Chairman. The purpose of the assemblies is to break the monotony of the school year as well as to entertain and inform.

The J.V. Basketball Squad did not have an excellent year, but did have some highlights. One was in their opening game at the Holiday Classic at Lake Oswego when they walloped Parkrose, 61-38. Another came when they invaded David Douglas country and whipped the Scots, 65-55. In their second meeting with the Scots, a last second field goal by an over-anxious Scot was still not enough as they fell 54-53. That was only one of several games which were decided by only a few points. In the last game of the season, the boys set a school scoring record by scoring 78 points in trouncing Clackamas, 78-64.

Although the J.V. Baseball squad did not have one of the schools better records this year, they did play hard until the last out, and not without their rewards. An early season victory over Parkrose came on Randy Wegner's one-hitter, and two hits by Ron Autry. But the bright spot of the season came in the next to the last game, when the Eagle's diamondmen pounded out a 10 to 1 victory over cross-city rival, Gresham. Next year promises more surprises and thrills in America's national game, baseball.

Dear Students:

Thank you for having selected us as your official photographer. We have endeavored to justify your faith in us by doing our best to please you. We hope that you like us as well as we liked working for you.

In the future, when you have need for good photographs taken by a professional photographer, whether it be a portrait, special pictures for special events, a family group, for formals or candids when you are married, feel free to tell us your requirements. We have an especially fine service on wedding portraits.

We shall look forward to seeing you when you again need photographs taken by a professional photographer.

Let us again express our appreciation for the fine co-operation of the entire student body. It has made our work with you very pleasant.
